

Tiny Tin Troops Flag Catalogue

Updated to March 2021

Includes new Napoleonic German States, Duchy of
Warsaw & Peninsula ranges

Most ranges are available in 6 sizes - 6, 8, 10, 12, 15 & 18mm with
Napoleonic flags also available in 22mm but some ranges are
currently not available in all sizes.

These standard sizes are all laser printed on quality A5 paper - 90gsm
for smaller flags & 100gsm for larger ones. All orders come with full
instructions but, if you do have any problems, then e-mail me and I'll
try and help to sort the problem.

A few ranges (or parts of ranges) are available in larger sizes. These
were mostly special orders and many are printed on A4 sheets rather
than A5. Although these are not listed for sale on the website, they are
included in this catalogue and can be ordered by sending an e-mail
listing your requests. Prices are similar to those on the website but A4
sheets cost a bit more to post so will be a bit more expensive.

Some ranges come with notes about the ranges - look for a reference
to these at the top of a flag page. These may discuss my sources or
list regimental Colonels or other information that seems to me might be
of interest to purchasers.

Tiny Tin Troops Flags

Medieval

Size	Code	Description	#	Set
